**Boys Hope Girls Hope of Arizona (BHGH)** helps academically capable children-in-need by providing academic support, enrichment opportunities, and the resources scholars need to reach their full potential, which sometimes includes housing. At BHGH, 95% of our scholars come from low income families and will be the first in their family to graduate college. From the start of sixth grade through college graduation, scholars gain access to the resources and support necessary to obtain a college degree, become true leaders in their communities, and break the generational cycle of poverty for themselves and their families.

### What is the BHGH difference?

One in five young people in Arizona have not completed high school and a similarly large proportion of young people in the state are disconnected from education—**At BHGH, 100% of our scholars graduate high school and directly enroll in college.**

Today's four-year college graduates will earn nearly \$1 million more over their working lives than will those who only receive a high school diploma—**At BHGH, 86% of our scholars graduate from college within six years.**

Program graduates are attending or have attended Arizona State University, Colgate, Colorado College, Dartmouth College, DePaul University, Gonzaga, Northern Arizona University, Pepperdine, St. Anselm College, St. Louis University, St. Edwards, University of Arizona and the University of Southern California, Yale University and more. **95% of BHGH students are the first in their family to attend college.**

**The Residential Program serves 8 boys and 8 girls. The Community-Based Program serves up to 42 students. There are currently 32 young adults in the College Program for a total of 90 active BHGH Scholars.**

*"I am not just another number that has been affected by the influence of the BHGH community, but another life that has been changed and given the opportunity to better the world around me. By being a part of the BHGH community, I carry the message that there is hope for all of those that go through troubles and that there are communities that are more than willing to help."*

*Manny, Boys Hope alumni, GCU*
