Dear Table Captain,

Thank you for your commitment to Boys Hope Girls Hope of Arizona by serving as a Table Captain for the 17th Annual Success Starts with Hope Breakfast! While we did hold this event virtually for the past two years, this is a great opportunity to invite back those know us and those who would be interested in our mission, scholars and their families.

As a Table Captain, you are a key component to the success of this event by inviting others to learn more about BHGH. While the event is a fundraiser, it is also a unique opportunity for you and your guests to be inspired by the youth served by BHGH of Arizona.

Thank you for generously investing your time to help children-in-need rise above their circumstances for a better future for themselves and generations to come. We could not do this without YOU!

Executive Director

Boys Hope Girls Hope of Arizona (BHGH) Overview:

BHGH helps academically capable children-in-need by providing academic support, enrichment opportunities, and the resources scholars need to reach their full potential, which sometimes includes housing. At BHGH, 95% of our scholars come from low-income families and will be the first in their family to graduate college. From the start of sixth grade through college graduation, scholars gain access to the resources and support necessary to reach their full potential and become healthy, productive life-long learners who adapt to an ever-changing world, thrive in the face of obstacles, and generate a positive ripple effect in their families, workplaces and communities.

What is the BHGH Difference?

The Scholar Success Program tackles the root cause of poverty and poor achievement by addressing two of the greatest needs of marginalized youth: a strong academic foundation and emotional support.

BHGH Scholars enter college equipped with a solid educational, social and life-skills foundation and secure admission to a college of their choice with significant scholarship support. Nearly 80% graduate college within six years, which is exceptional considering that statistically, less than 11% of low-income, first-generation college students earn a degree. BHGH scholars graduate college with little to no debt.

Program graduates are attending or have attended Arizona State University, Colgate, Colorado College, Dartmouth, DePaul University, Gonzaga, Northern Arizona University, Pepperdine, St. Anselm College, St. Louis University, St. Edwards, University of Arizona and the University of Southern California, Yale, Macalester College, Oberlin College, Grand Canyon University and more. 95% of BHGH students are the first in their family to attend college.

The Residential Program serves 8 boys and 8 girls. The Academy Program serves up to 42 students. There are currently 32 young adults in the College Program for a total of 90 active BHGH Scholars.

"BHGH has blessed me tremendously. The program with all of its rigors and requirements has given me the tools and resources I need to kickstart my college journey. However, the biggest blessing that came my way was the Boys' House. It has given me more that I could have ever dreamed of. The house is a magical place. Each and every day, each and every person taught me something."

Jaam, Collegian
