Boys Hope Girls Hope Is Changing Lives!

Boys Hope Girls Hope of Arizona (BHGH) helps academically capable youth-in-need by providing academic support, enrichment opportunities, and the resources scholars need to reach their full potential. At BHGH, 95% of our scholars come from low-income families and will be the first in their family to graduate college. From the start of sixth grade through college graduation, scholars gain access to the resources and support necessary to obtain a college degree, become true leaders in their communities, and break the generational cycle of poverty for themselves and their families.

Boys Hope Girls Hope provides:

- Early intervention beginning as young as 6th grade – a key transition time for youth to establish fundamental academic achievement skills and attitudes.
- Holistic programming standards focusing on content essential for positive youth development including Personal Development, Empowered Learning, College & Career Readiness, Life Preparedness, and Leadership & Service Tutors, mentors, summer programming and social-emotional supports.
- Scholarships to private and/or college preparatory middle and high schools including tuition, books, uniforms, supplies and access to enrichment and extracurricular activities.
- Support through college completion – case management and needs-based, gap scholarship support to ensure scholars not only enter, but persist and complete college as career-ready, community-minded young adults. Inclusion in a national network of like-minded scholars and alumni providing personal, educational and career focused development and engagement opportunities.

What Makes Us Different?

- One in five young people in Arizona have not completed high school and a similarly large proportion of young people in the state are disconnected from education—At BHGH, 100% of our scholars graduate high school and directly enroll in college.
- Today's four-year college graduates will earn nearly \$1 million more over their working lives than will those who only receive a high school diploma—At BHGH, 87% of our scholars graduate from college with zero student debt.
- Program graduates are attending or have attended Arizona State University, Northern Arizona University, Pepperdine, St. Anselm College, St. Louis University, St. Edwards, University of Arizona, Yale University and more.
