WHY PRIVATE/CATHOLIC EDUCATION?

99% of students at Catholic schools graduate from high school

97% of these graduates go on to post-secondary education or enter the military

Graduates of Catholic schools are among the highest recipients of university scholarships

Alliance for Catholic Education (ACE) research indicates:

- **The achievement gap* is smaller in faith-based schools.**
- **Students in Catholic and other private schools demonstrate higher academic achievement on average than students from similar backgrounds in public schools.**
- **Latino and African American students who attend Catholic schools are more likely to graduate from high school and more likely to graduate from college than their public-school peers.**
- **Multi-disadvantaged students benefit most from Catholic schools.**
- **Graduates of Catholic schools are likely to earn higher wages.**
- **Catholic schools tend to produce graduates who are more civically engaged, more tolerant of diverse views and more committed to service as adults.**

*Achievement gap refers to the observed, persistent disparity of educational measures between the performance of groups of students, especially groups defined by socioeconomic status, race/ethnicity and gender.
